Professional Summary

Automation & AI-focused developer with 8+ months of industry experience specializing in Playwright automation, AI-assisted (Vibe) coding, and R&D of modern AI tools. Skilled in building scalable web applications, automation frameworks, API workflows, database systems, and AI-powered content generation platforms. Also a professional video editor creating high-retention digital content.

Professional Experience

Automation & R&D Engineer — Mahat.ai - Intern

Aug 2025 – Present (Ongoing, 8+ months)

- Built end-to-end **browser automation frameworks using Playwright**
- Developed **UI test automation, workflow automation, and internal productivity tools**
- Worked in **Research & Development**, exploring trending AI and automation tools
- Applied **AI-assisted (Vibe) coding** to rapidly develop cross-technology solutions
- Integrated **LLM & API-based automations** (Claude, OpenAI, AI tools)
- Designed **Full Content Generation Automation System** (text → images → voice → video → publish)
- Created **API integrations and automation pipelines using n8n**
- Worked with **Swagger/OpenAPI endpoints** for API testing and documentation
- Developed database solutions using **SQL, PostgreSQL, pgAdmin**
- Reduced manual effort through intelligent automation and scripting

Tech Stack: Playwright, JavaScript, Node.js, React, SQL, PostgreSQL, pgAdmin, n8n, REST APIs, Swagger/OpenAPI, Git, LLM APIs

Freelance Experience

Video Editor & Content Creator

2022 – Present

- Edited **YouTube videos, Instagram Reels, and short-form content**
- Specialized in **retention editing, hooks, engagement storytelling**
- Delivered creator-focused, budget-friendly content solutions
- Professional editing using **DaVinci Resolve**

Skills: Reels Editing | Motion Effects | Color Grading | Audio Sync | Storytelling

Projects

Full Content Generation Automation System

AI-powered system generating scripts, images, voice-over, and videos automatically; reduced manual editing time by 80%.

Playwright Web Automation Framework

Reusable UI automation suite for workflow testing, validation, and productivity improvements.

Smart College Guidance Web App

React-based application for analyzing TNEA college cutoffs using Excel → database → filtering system.

Technical Skills

Languages: Java, JavaScript, SQL

Web & Full Stack: HTML, CSS, React.js, Node.js

Automation & Testing:
Playwright, Browser Automation, Test Framework Design, Workflow Automation, n8n

AI & Modern Tools:
LLMs, Claude, OpenAI APIs, Prompt Engineering, AI Workflows, Vibe Coding

API & Backend:
REST APIs, Swagger/OpenAPI Endpoints, API Integration

Database:
MySQL, PostgreSQL, SQL, pgAdmin

Tools:
Git, VS Code

Creative:
DaVinci Resolve (Professional Video Editing)

Education

B.Tech – Information Technology
Erode Sengunthar Engineering College (Autonomous)
CGPA: 8.2 | 2026

HSC – 78%
SSLC – 70%

Achievements

- Paper Presentation – Techy Talk Event, PA College of Engineering & Technology
- National Level Workshop – Sathyabama University

Interests

Automation Engineering • AI Tools • Full Stack Development • Video Editing • Content Creation
